

WORLD *Style*

Multi-time zone display clock

Bodet

The WORLD *Style* displays the official time for 4 or 6 geographic locations of your choice.

It enhances both reception and work areas in hotels, travel agencies, banks, tourist offices and conference halls. Its discreet design means that it can be integrated into all interior decors.

Winter / summer changeover dates are pre-programmed for all locations for an indefinite period into the future, so no intervention is required from you.

Installation of the WORLD *Style* comprises fixing to the wall or ceiling and connecting up the mains supply. No further cabling is needed.

The WORLD *Style* can be radio synchronised (using an external antenna) and can also synchronise several other WORLD *Style* clocks (using 2-core cable).

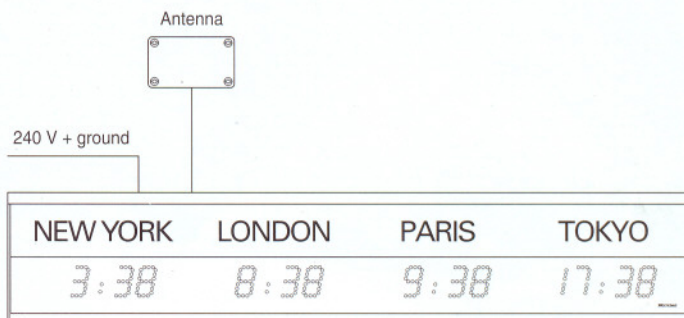

Three models are available :

- i) "NEW YORK LONDON PARIS TOKYO" red LED digit display.
- ii) 4 locations of your choice { red, green or yellow
- iii) 6 locations of your choice { LED digit display.
